Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner contacted Applicant to discuss claims 24 and 25 which had been inadvertently listed as both members of Group VII and as linking claims. The examiner indicated that the claims were properly placed in Group VII, and commensurate with Applicant's election of Group VI, the claims would be withdrawn from consideration and not examined as linking claims, but would be included with Group VII, and handled according to linking claim practice. Applicant maintained the election of Group VI and the species as identified in the response.
